## Thanks to our members for another great year!

**Remember: investing more in your Credit Union means we're able to invest more in you and your family!**

Many people ask: What is a credit union? A credit union is a group of people who pool their savings and loan the money back to other credit union members in the financial coop. It is “people helping people,” who share a common bond of where they work or live.

When you join Member Preferred Credit Union, you become one of the owners in this not-for-profit cooperative. That means there are no outside stockholders who must be paid from the earnings. Any profits go to you, the member/owner, in the form of better rates on savings and loans as well as better services and lower fees overall.

So as we celebrate a successful year at Member Preferred FCU, thank you for your continued support and participation. We could not exist without you! Our sincere wishes for a happy 2016 for you and yours!

## Looking to simplify in the new year?

**Start with consolidating your debt to a low-cost loan with your Credit Union.**

The holidays are behind us, and many may now face outstanding balances on one or more credit cards or loans. Consider transferring and consolidating your balances into a Member Preferred Signature Loan for one low payment with affordable terms. In some cases you may be able to shorten your term and save yourself money in the process.

Contact us today to find out how consolidating your debt can save you time and money!
